### Introduction:

In the partnership with DKA Austria and Society for Environment Education Development (SEED) is conducting “Local women and children empowerment through sustainability livelihood” program. By the help of this program, SEED provides sustainable business work to poor people, women group, cooperative members, farmers group and other back made people of working area. Due to such activities, we can develop their skills and capacity and help to grow their economic, social, cultural and educational levels. We have chosen *Urahari, Phoolbari, Tarigaun, Manpur and Goltakuri* as its working areas. SEED has faith that this program will be able and successful to implement, increase the women active participation and access in the nation's local assemblies program.

### **The completed Activities:**

1. Leadership development training to women rights forum.
2. Facilitate and conduct regular group meeting.
3. Stationery support to poor and orphan children.
4. Training on traditional skills .(Not completed)
5. Completed).
6. Capacity building training to cooperative executive members.
7. Support for Income Generation through Cooperative.
8. Management support to Cooperative. (Continue.....).
9. Communication and coordination with government and non government organization. (Continue...).
10. Office Support Cost. (Continue.....)

### **The Program Processes:**

After the agreement of this project, SEED is cooperating with related assemblies of Government of Nepal and Social Welfare Council and Social Organization's Federation and networks as well in order to conduct programs following the related policies and implementing them.

### **Essential Acceptance and Process for Project Implementation:**

First of all, in order to conduct the project of SEED in the partnership of DKA Austria, SEED filled up the form of Ministry of Nepal Government, Social Welfare Council Kathmandu as per the rule of Ministry of Government of Nepal. Details of organization's official certificates, progress report, agreement and total budget of project had been submitted and requested to Social Welfare Council for the approval of the project and it has already been approved.

### **Written Information of Project to related assembly of Nepal Government:**

In the subject of "Local Women and Children Empowerment through Sustainability Program" SEED organized the program coordinating with related local assembly of Nepal Government, Office of District Development Committee, Women and Children Office, Office of Village Development Committee, Municipality, Social organizations, different groups and networks in order to share different opinions about the project. The representative of related assemblies and different political parties committed and promised us to help us and make the program successful.

### **Project Implementing Processes of SWC:**

SEED fulfilled all the below mentioned processes for the approval of SEED and DKA Austria partnership program from Social Welfare Council.

- ✓ Form prepared by Social Welfare Council filled up and submitted
- ✓ Submitted annual report, audit report and renewal registration certificate and Social Welfare Council involved certificate of SEED
- ✓ Partnership agreement certificate submitted
- ✓ Submission of project activities, budget and planning
- ✓ After the submission of all the documents of SEED, Social Welfare Council provided written acceptance certificate after 1 month After the submission of all the required documents

### **Informed and cooperated to Village Development Committee, District Development Committee and Municipality:**

Shared about the program to district development committee, municipality and village development committee and provided approval letter and budget and made them promise to help and support us in our different programs.

- ✓ Informed about program
- ✓ Provided agreement, budget and planning of project
- ✓ Information given about working areas
- ✓ Discussion in the subject of targeted groups
- ✓ Shared about program nature

### **Project information to stakeholders and right holders of working areas**

We shared and informed about the related project to the related groups, species, stakeholders and right holders of our targeted working areas.

- ✓ Orientation and group discussion with targeted group
- ✓ Informed about the country and name of partnership organization which is funding SEED i.e. DKA Austria
- ✓ Shared about target groups selection
- ✓ Informed about the project activities and budget
- ✓ Discussion with local stakeholders about coordination and cooperation

*We have conducted following activities which are given below:*

### **The Program Completed Activities:**

- 1. Leadership development training to women rights forum.**  
**Introduction:**

In order to enhance socially, economically, educationally and politically to poor's, Dalits, Indigenous and backward women staying in rural areas along with a view to increase their capacity development in related local agencies and make meaningful presence, access including at decision level making, leadership development training to women rights forum was provided to targeted women groups, associations and representatives of women rights forum through women groups and associations.

This training was held so that women can fight and struggle with their daily basis problems empowering them to live an independent social life ensuring their women rights. It will help women groups to play a successful responsible role enhancing their important demands and queries. This program was held in the official building of SEED organization on 14 to 15, June 2017 in presence of 36 women.

### **Training Objective:**

- It will help to mobilize and strengthen women rights forum.
- It will help to minimize various kinds of violence over women.
- To construct a capable and competent woman rights activist.
- Help to unify different kinds of women groups and associations.
- To establish meaningful presence and access of women in various sectors of local agencies.

### **Suggestions from Participants:**

- Time to time review meeting need to be conducted for the effective mobilization of Women Forum.
- Expansion of awareness at community level to minimize the various kinds of incidents occurring at local level.

## **2. Facilitate and conduct regular group meeting.**

The targeted different women groups, associations, women networks, child club and women representatives of co-operative organizations in the working areas of SEED organization through the REFLECT classes in their group meetings have a regular discussion and interaction in various socio-economical, educational, health and political sectors. Along with they do have discussion related to individual, village and incidents occurred in society including seasonal and non-seasonal weather, awareness and their pre-preparation in their group meetings. They also have a regular discussion about the group works of groups, review of development and progress and future plans in their women group meetings. In then, REFLECT facilitator's facilitates in the mobilization of 6 women groups 60 participation and communities.

### **3. Stationery support to poor and orphan children.**

This stationary support program was conducted for the children of poor and marginalized family so that they can continue their education regularly. Mostly due to lack of stationeries like uniform, books and copies for study purpose most children from poor and marginalized family who cannot afford education to their children because of their poor economic condition drop out and discontinue education. So, this support program was conducted for the children with a motive to continue their education going to school regularly and get knowledge.

It will help parents to send their children to school easily in a regular manner along with will help to reduce their burden economically. This support program was held in official building of SEED organization on the occasion of national child day on 8th July 2017 and from which 17 children from 10 schools falling in the working areas of SEED were benefited. In the program 38 participants were present out of which 20 were female and 18 were male.

#### **Training objective:**

- It will help children in regular continuation of education in school.
- It will create favorable environment for continues study in the school.
- To aware parents/guardians towards the future and education of children.

#### **Consultation and Suggestions:**

- To bring improvement in the educational status of children from poor family members, stationary support programs should keep on continuing (Principal (Prigaun school) and chief guest of program: Tikaram Dhakal).
- The future of children will only become safe when parents will be more responsible in the activities and education of children in bringing their improvement in education.

### **4. Capacity building training to cooperative executive members.**

Capacity building training was provided to cooperative executive members of Bhagya Krishi Co-operative Organization Ltd in order to develop their capacities, co-operative education and fundamental values, norms and policies so that it will help to mobilize the cooperative organization effectively with more responsibilities.

We have expected that this program will additionally motivate, support and energize the share holders of this co-operative organization to launch their normal work into commercial form and make them easy for their sustainable means of livelihood. Likewise, this training will play an important role for the economic empowerment of poor and backward families enhancing awareness about the co-operative and its common understanding towards it. This training was

conducted with an active participation of 29 people where 25 were female participants and 4 were male participants by SEED organization on 9 to 10<sup>th</sup>, July 2017.

### **Training Objective:**

- To inform about the co-operative organization's objective, values, norms and rights.
- To increase the share membership of co-operative organization.
- To inspire share members for conduction of commercial oriented works.

### **Training methods and process:**

- Cooperative organization's values, norms, rights along with work and responsibilities were discussed with participation. In the discussion, illustrating task being done by cooperative executive members, cooperative's meaning, importance and role of committee's were also clearly explained.
- In the training, in order to conduct the cooperative organization effectively group discussions, knowledge, skills and experience sharing were held about how share members can make sustainable commercialization along with importance of regular saving and loan investment in the cooperative organization.

### **Training activities:**

- Capacity development of associated share members in the cooperative organization.
- Information about the agricultural materials and subsidy made available by Nepali government for the farmers.
- How can we get discounted loan from nation?
- How can we flow service of cooperative organization in an easy way up to backward groups/committees?
- How can we increase participation of all share members?
- Acknowledge of executive's work, role, responsibility and duty.
- Cooperative sustainable management and effective implementation.

### **Participant's feedbacks, demand and suggestions:**

- Bhagya Krishi Cooperative should explore the awareness of its cooperative associating poor women, farmers and jobless youths of villages and tol (sub village).
- To enforce for the management of discounted loan for knowledge, skills and commercial work.
- Tour and visualization program of ideal Cooperative's.
- Help in the mobilization of collected fund of groups in a managed way.

## **5. Support for Income Generation through Cooperative.**

### **Introduction:**

SEED in cooperation with Bhagya Krishi Cooperative Ltd is mobilizing revolving fund for the women and children staying in the working areas of SEED with an objective to help them for their commercial means of livelihood improving their all around development. In then it will help the poor women groups and members of cooperative to run different kinds of works in commercial form for their livelihood. This program will help to empower women economically improving their life status along with will provide good nutrition and quality education for their children.

### **Objective:**

- It will help for the sustainable commercial means of livelihood for the marginalized, poorest and low income sources members enhancing their income generation.
- It will help for the economic empowerment of cooperative members gradually minimizing their poverty mobilizing the revolving fund in low-priced process as possible for their sustainable livelihood.
- To help to use maximum local resources and materials in need to make them live and do sustainable livelihood.
- Help to increase active participation of poor and marginalized groups in the local resources and materials.
- To provide regular effective supervision, monitoring, practical implementation, good utilization and mobilization of revolving fund.

### **Process:**

- Good coordination, cooperation and discussion will be taken in regular basis for the smooth mobilization of revolving fund with the Bhagya Krishi Cooperative Organization.
- Discussion about mobilization of revolving fund, its significance and target groups.
- Study of conducted activities and output documents prepared by Cooperative and discussion with related target groups.
- Available of revolving fund for the poorest farmers for their livelihood.

### **Subject related to Revolving Fund:**

- Good coordination and cooperation with Bhagya Krishi Cooperative Organization.
- Preparation of guidelines for the mobilization of revolving fund.

- Agreement with Cooperative.
- Determination of target groups for the mobilization of revolving fund.

#### Collected suggestions and feedbacks:

- Mobilization of revolving fund has eased the means of livelihood.
- It has ease to take traditional works into commercial form.
- It has provided discounted loan in comparison to high loan of different kinds of Banks and Finance Organizations.

## Outputs of activities:

- Out of 14 women 9 women from goat rearing, 2 from Vegetable Farming, 2 Buffalo rearing and 1 from retail shop are earning good in mobilizing revolving fund obtained from Bhagya Krishi cooperative organization.
- 4 women after getting women capacity and leadership training are able to become coordinator and sub-coordinator of ward citizen forum.
- 17 children from poor families have continued to school after getting scholarship support.
- Share members of women participants are increasing in Cooperative along with its good management.

### **Learning:**

- Women feel comfort in fighting for their rights being associated with women groups and networks.
- Small revolving fund is also able to improve the economic status of the family.
- We are able raise voice of women in building capacity of targeted women in different local agencies.
- School dress and stationery support for the poor and orphanage children has created favorable environment for their school continuation.

### **Major Challenges that Occurred in Proposed Working Sites**

- Increasing range of the use of Chemical fertilizers & Pesticides by local farmers that leaving adverse effects on human health.
- Less occupied/ownership land and Maintenance level production is caused due to the low Awareness state targeting to the future generation.
- Insecticides/pesticides made from weed lings is neglected and getting low in the community.
- The children from poor and marginalized families are lured for schooling but are kept as Tharu Girl's Kamlahari and house-labors by the local elite groups.

### Successful Case Story:

#### 1. Special case story title:

<b>Title of Case story</b>	<b>: “Income generation from Mushroom Farming”</b>
<b>District</b>	<b>: Dang (Nepal)</b>
<b>Location</b>	<b>: Urahari 2, Kachili, Dang</b>
<b>Characters</b>	<b>: Kebali Budha</b>
<b>Project</b>	<b>: Women and Children Empowerment through Sustainable Livelihood Program”</b>

---

#### Case story: Initial status:

Mrs. Kebali Budha a residence of Urahari VDC ward no. 2 from Dang district is a 45 years old woman. She is earning well from Mushroom farming. She is from normal family background with four family members of herself, her husband and two children son and daughter. She has a small family but being a small family even it was difficult for her to sustain a normal livelihood. She has 10 Kattha (4355 sq feet) of land in the name of property and from that land through farming she used to sustain their livelihood hardly throughout the year. Due to lack of good irrigation system income from farming in that land was very less (not enough for a year) and she hardly used to survive from the foods she produces from that land for entire year she said.

She says; “It was difficult to admit our children in good school and run other house behavior because of which by doing labor work only it used to become easier to run the family behavior and send children to school”. Likewise, she says, “I always used to think about how to run the family and provide quality education to our children. We didn’t have any other source of income generation. Because of which I used to think of home business from which I can increase my family income source and improve education status of our children”.

In 2065 BS (2008 A.D) I joined the “Lalita Women Group” which was formed by the support from Society for Environment Education Development (SEED) organization. After associating with the group I and other women (sisters) started discussing about saving, income generation and other different social problems existing in the society including women rights. Not only this

---

after associating with this group I started attending different seminars and trainings from which I got an opportunity to be aware about my rights (women rights). In then in order to conduct women group in an effective and sustainable way after having discussion with women groups “Bhagya Krishi Cooperative” was established in 2069 BS (2012 A.D) to improve economic status through income generation programs. After that in cooperation with SEED organization, DKA, Austria and Bhagya Krishi Cooperative in 2072 BS (2015 AD) in order to run Mushroom farming for income generation I took support of NRs. 30,000 from “Revolving Fund mobilization program “and started my business she said.

### **Case story: after getting support from SEED and DKA, Austria**

Mrs. Kebali Budha now shares the experiences she got about the changes brought by Mushroom farming in their life. She says, “She is happy now and is grateful to SEED organization, DKA, Austria and Bhagya Krishi Cooperative by which she got money support from “Revolving Fund program” and is successful in earning well”. She added recently she is producing mushrooms in 45 bundles and mushroom so produced is sold to customers at the rate of Nrs. 200 from home. In this way, she says “she is earning around Nrs. 50,000 to Nrs. 60,000 in one production (lot)”.

From this she expresses it has become easier for her to run the family and other household activities. She says, “I feel like mushroom farming business is an easy business”. We don’t have to spend our whole day time in it. Our leisure time can be utilized in other household chores as well.

She says, “Children from mushroom farming business families even after school give their leisure time in mushroom cultivation”. Mushroom farming has played important role in improving economic status. This business has improved economic status of me as well as other 5 women sisters”. Similarly, she says, in the past even for small problems we have to ask for money from other villagers but now it has become easier. We don’t have to spread our hands now to others for money. She is more than happy from this mushroom cultivation.

## 2. Special case story title:

**Title of Case story** : “Retail shop business becoming main source of income”  
**District** : Dang (Nepal)  
**Location** : Tarigaun -9, Bangai, Dang  
**Characters** : Bishnu Chaudhary  
**Project** : Women Empowerment for Sustainable Livelihood”

---

### Case story: Initial status

My name is Mrs. Bishnu Chaudhary. I am 35 years old resident of Tarigaun VDC ward no. 9 from Dang district. We had a normal family background with 4 family members of me, husband and two children. We had a small family and also being a small family due to simple family background it was difficult for us to provide education to children and sustain livelihood. None of the business was conducted at home.

It was hard to survive throughout the year from tenant. In the name of other source of income it was compulsion to do labor work to run the family behavior. In that situation in order to bring economic improvement I got support from “Revolving Fund mobilization program” of NRs. 50,000 from Bhagya Krishi Cooperative in co-operation with Society for Environment Education Development (SEED) and DKA, Austria to start my “Retail shop business”.

### Case story: after getting support from SEED and DKA, Austria

She said that she started her retail shop business with gross collection of 1 lakh, NRs. 50,000 from SEED and DKA, Austria support and NRs. 50,000 from her own investment in 2073 BS (2016 A.D). Likewise, she says, “After the initiation of that business she has started earning daily an amount of NRs. 700 to 1000”. She adds from this it has become easier for her to run the family and send children to school.

Mrs. Bishnu Chaudhary again says about the changes brought by “Retail Shop business” in her life that she is now very happy. She is successful in earning well from the retail shop business with the help provided by SEED, DKA Austria and Bhagya Krishi cooperative from “Mobile Fund mobilization program” amount. Recently, it has become much easier for her to run the

---

family smoothly and send her children to school she added. She expresses her deep gratitude to SEED and DKA Austira for their support and program.
